

Daily Learning Task 3

Year 5

Maths

Focus: Equivalent fractions

What can you remember about equivalent fractions?

Can you define the word equivalent?

Complete the worksheet to recap equivalent fractions.

Extra: can you create a piece of Maths poster about equivalent fractions?

Remember to include: • Key vocab • Top tips • Advice • Diagrams • Explanations

You could even create this on the computer, if you wish!

English

Focus: Similes and Metaphors Read the information below about similes and metaphors...

What are similes and metaphors?

simile → a comparison between two different things, using the words 'as' or 'like'.

example

Laila was as fast as a cheetah.

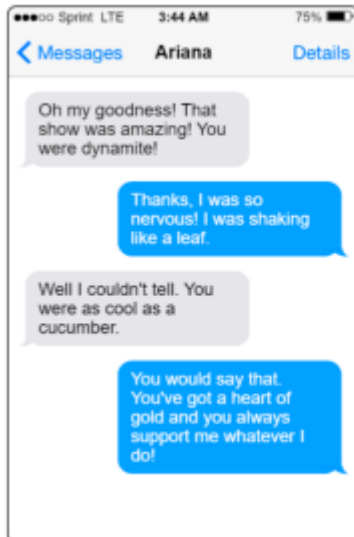

metaphor → a comparison between the description of one thing to another. It does not contain the words 'like' or 'as'.

example

My grandma is a tortoise when we go for walks.

You were dynamite! = **metaphor**

I was shaking like a leaf. = **simile**

You were as cool as a cucumber. = **simile**

You've got a heart of gold... = **metaphor**

You were dynamite! = **You performed really well and put on an exciting show.**

I was shaking like a leaf. = **I was really apprehensive and struggled to stop my body moving.**

You were as cool as a cucumber. = **You were very relaxed and calm.**

You've got a heart of gold... = **You are very kind.**

Why do we use similes and metaphors?

Similes and **metaphors** are examples of **figurative language techniques**.

(Hint: figurative language is when you use a word or phrase that does not have its normal, everyday meaning.)

They encourage the reader to use their imagination and encourage them to paint a picture in their mind. Similes and metaphors allow the reader to interpret the words in their own way, which can make it more engaging.

Next, complete the English worksheets about similes and metaphors.

Other

Focus: RE

What do you know about different religions?

You will have covered many religions during your R.E lessons at school – can you create an information sheet about each one you know?
